

Chives

Plant Seeds Outdoors:

APR	MAY	JUN	JUL	AUG	SEP
—	—				

Ready to Harvest: 80–90 days

Perennial. Chives are problem free in the garden and are used as a companion plants to keep insects at bay. Leaves and purple flowers are edible. Harvest flowers just as they start to open. Cut the flower, separate into florets and sprinkle on salads. Divide chives every few years and remove flowers to increase growth.
