

Pumpkin

New England Pie

Plant Seeds Outdoors:

APR	MAY	JUN	JUL	AUG	SEP
		—			

Ready to Harvest: 105 days

Heirloom pumpkin with dense, dry, stringless flesh. Perfect for pies, soups, or gnocchi. The pumpkins weigh 2-3 kg (4.5-6.5 lbs) and have a deep orange colour. For optimal sugar content, cut the stem about 4 cm (2") from the fruit. Before storing, cure the pumpkins for 10 days outdoors or for 4-5 days in a warm room.
