

# Sage

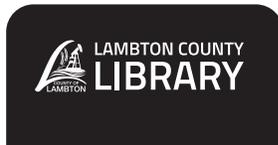

## Plant Seeds Indoors:

FEB	MAR	APR	MAY	JUN	JUL
...	.....	.....			

**Ready to Harvest:** 75 days

Sow directly in the garden after the risk of frost has passed, or start indoors four to six weeks before the last frost. This plant is a favourite among bees and seed-eating songbirds. To promote branching, pinch back the tips of the plants. Trim them in the spring and after flowering to encourage new growth. Large plants have soft grey leaves and spikes of purple flowers.
