

# Watermelon Blacktail Mountain

Plant Seeds Outdoors:

APR	MAY	JUN	JUL	AUG	SEP
		—			

**Ready to Harvest:** 71 days

This watermelon has super sweet, crisp red flesh and a dark green rind. The fruits typically weigh between 4-5 kg (18 lbs). Short-season variety. They will ripen from late August to early September. A watermelon is considered ripe and ready to harvest when the nearest tendril to the fruit withers and dries up.
